
Contents

Dedication	v
Series Editor's Introduction	vii
Foreword	xi
Preface	xiii
Contributors	ixx
Part I. Adipose Tissue: Structure and Function	
1 The Adipose Organ	3
<i>Saverio Cinti</i>	
2 Metabolism of White Adipose Tissue	21
<i>Michel Beylot</i>	
3 Leptin	35
<i>Malaka B. Jackson and Rexford S. Ahima</i>	
4 Adiponectin	47
<i>Aimin Xu, Yu Wang, and Karen S. L. Lam</i>	
Part II. Adipokines as Regulators of Immunity and Inflammation	
5 Vasoactive Factors and Inflammatory Mediators Produced in Adipose Tissue	63
<i>Gema Frühbeck</i>	
6 Regulation of the Immune Response by Leptin	79
<i>Victor Sánchez-Margalet, Patricia Fernández-Riejos, Carmen González-Yanes, Souad Najib, Consuelo Martín-Romero, and José Santos-Alvarez</i>	
7 Leptin in Autoimmune Diseases	91
<i>Giuseppe Matarese</i>	
8 Leptin and Gastrointestinal Inflammation	101
<i>Arvind Batra and Britta Siegmund</i>	
9 Adiponectin and Inflammation	111
<i>Yuji Matsuzawa</i>	
Part III. Interactions Between Adipocytes and Immune Cells	
10 Macrophages, Adipocytes, and Obesity	121
<i>Anthony W. Ferrante, Jr.</i>	
11 Interactions of Adipose and Lymphoid Tissues	133
<i>Caroline M. Pond</i>	

12	Adipose Tissue and Mast Cells: <i>Adipokines as Yin–Yang Modulators of Inflammation</i>	151
	<i>George N. Chalkov, Anton B. Tonchev, Nese Tuncel, Pepa Atanassova, and Luigi Aloe</i>	
13	Bone Marrow Adipose Tissue	159
	<i>Patrick Laharrague and Louis Casteilla</i>	
Part IV. Weight Gain and Weight Loss		
14	The Epidemiology of Obesity	183
	<i>Carol A. Braunschweig</i>	
15	Environmental Aspects of Obesity	197
	<i>Lisa Diwald, Meredith S. Dolan, and Myles S. Faith</i>	
16	Developmental Perspectives on the Origins of Obesity	207
	<i>Christopher W. Kuzawa, Peter D. Gluckman, and Mark A. Hanson</i>	
17	Genetics of Obesity: <i>Five Fundamental Problems With the Famine Hypothesis</i>	221
	<i>John R. Speakman</i>	
18	Inherited and Acquired Lipodystrophies: <i>Disorders of Adipose Tissue Development, Differentiation, and Death</i>	237
	<i>Vinaya Simha and Anil K. Agarwal</i>	
19	Mechanisms of Cachexia	255
	<i>Robert H. Mak and Wai W. Cheung</i>	
20	Effect of Weight Loss on Disease	265
	<i>Sergio José Bardaro, Dennis Hong, and Lee Swanström</i>	
Part V. Adipose Tissue and Disease		
21	Adipose Tissue and Insulin Resistance	281
	<i>Stephen E. Borst</i>	
22	Adipokines in Non-Alcoholic Fatty Liver Disease	291
	<i>Ancha Baranova and Zobair M. Younossi</i>	
23	Adiposity and Cancer.....	307
	<i>Eugenia E. Calle</i>	
24	Obesity and the Heart.....	327
	<i>Alison M. Morris, Paul Poirier, and Robert H. Eckel</i>	
25	Obesity and Asthma	341
	<i>Elisabeth Luder</i>	
26	Adiposity and Kidney Disease.....	351
	<i>Srinivasan Beddhu and Bonnie Ching-Ha Kwan</i>	
27	Obesity and Joint Disease	359
	<i>Andrew J. Teichtahl, Anita E. Wluka, and Flavia M. Cicuttini</i>	
Appendices		373
Index		385
