

Part I. Physiology of Male Reproductive Function

Section I: History

1. Male Reproduction: Evolving Concepts of Procreation and Infertility Through the Ages 3
Jeanette Hacker and Fouad R. Kandeel

Section II: Anatomy

2. Anatomy of the Male Reproductive Tract 9
Fouad R. Kandeel, Vivien Koussa, and Ewa Kuligowska

Section III: Physiology

3. Neuroendocrine Control of Testicular Function 21
Stephen J. Winters
4. Analysis of the Neuroendocrine Control of the Human Hypothalamo–Pituitary–Testicular Axis 35
Johannes D. Veldhuis and Daniel M. Keenan
5. Normal Spermatogenesis 57
Jeffrey B. Kerr
6. Physiology of the Epididymis 71
Russell C. Jones and Jean-Louis Dacheux
7. Physiology of the Prostate 81
Helen D. Nicholson and Stephen J. Assinder

Section IV: Aging

8. Testosterone and Aging 93
Horace M. Perry III, John E. Morley, and Gary A. Wittert
9. Effects of Aging on Spermatogenesis and Sperm Function 101
Bernard Robaire, Christopher C. Oakes, and Ekaterina V. Zubkova

Section V: Psychological and Social Factors

10. Androgen Effects on Cognitive Function 113
Monique M. Cherrier
11. Social and Psychological Influences on Male Reproductive Function . . . 129
William Marsiglio and Ramon Hinojosa

Part II. Pathophysiology of Male Reproductive Dysfunction

Section I: General Aspects

12. Male Hypogonadism 143
Ronald S. Swerdloff and Christina Wang

Section II: Developmental Disorders

13. Cryptorchidism, Testicular Torsion, and Torsion of the Testicular Appendages 161
Bartley G. Cilento, Jr. and Anthony Atala
14. Disorders of Male Puberty 173
Erick J. Richmond and Alan D. Rogol
15. Male Varicoceles 183
Benjamin K. Canales, Nissrine Nakib, Ann Lavers, and Jon L. Pryor

<i>Section III: Infections</i>	
16. Male Genital Tract Infections and Infertility.....	197
<i>Darwood E. Neal, Jr. and Stephen H. Weinstein</i>	
17. HIV and Male Fertility	205
<i>Timothy B. Hargreave and Chhanda Ghosh</i>	
<i>Section IV: Ejaculatory Duct Disorder</i>	
18. Ejaculatory Duct Obstruction in the Infertile Male	213
<i>Erik T. Goluboff and Harry Fisch</i>	
<i>Section V: Impact of Other Diseases</i>	
19. Male Hormones and Systemic Disease	221
<i>John E. Morley and Gary A. Wittert</i>	
20. The Effects of Chemotherapy and Radiotherapy on Testicular Function	235
<i>Simon J. Howell and Steve M. Shalet</i>	
<i>Section VI: Environmental Factors</i>	
21. Environmental Toxins and Male Fertility	245
<i>Rebecca Z. Sokol</i>	
22. Micronutrients and Male Fertility	251
<i>Nan B. Oldereid</i>	

Part III. Investigation of Male Reproductive Dysfunction

<i>Section I: General Assessment</i>	
23. Clinical Assessment of the Infertile Male.....	261
<i>Chakriya D. Anunta and Fouad R. Kamdeel</i>	
24. Semen Analysis and Sperm Function Testing	271
<i>H. W. Gordon Baker, Gary N. Clarke, De Yi Liu, Tanya M. Stewart, and Claire Garrett</i>	
<i>Section II: Specialized Investigations</i>	
25. Testicular Biopsy of the Infertile Male	285
<i>Brett C. Mellinger</i>	
26. Immunological Evaluation of Male Infertility.....	293
<i>Gary N. Clarke and H. W. Gordon Baker</i>	
27. Genetic Evaluation of the Infertile Male.....	301
<i>Edward D. Kim</i>	
28. Imaging of the Reproductive Tract in Male Infertility.....	313
<i>Ewa Kuligowska, Erik N. Nelson, and Helen M. Fenton</i>	

Part IV. Treatment of Male Reproductive Dysfunction

<i>Section I: Pharmacological Interventions</i>	
29. Androgen Replacement Therapy	333
<i>Ronald S. Swerdloff</i>	
30. Hormonal Induction of Spermatogenesis in Males with Hypogonadotropic Hypogonadism	337
<i>Peter Y. Liu</i>	
31. Progress in Male Contraception	349
<i>Christina Wang and Ronald S. Swerdloff</i>	
<i>Section II: Treatment of Seminal Transport Disorders</i>	
32. Retrograde Ejaculation	359
<i>Atner Hershtlag and Sarah K. Girardi</i>	
33. Surgical Treatment of Male Infertility.....	365
<i>Peter N. Schlegel and Jeremy Kaufman</i>	
34. Vasectomy and Vasectomy Reversal	385
<i>Peter T. K. Chan and Marc Goldstein</i>	

Section III: Psychological Issues in Male Infertility

35. **Psychological Effects of Infertility and Its Treatment in Males** 407
Kenneth Gannon, Lesly Glover, and Paul David Abel

Section IV: Treatment of Special Problems in Male Infertility

36. **Management of Immunological Factors in Male Infertility** 419
H. W. Gordon Baker and Gary N. Clarke
37. **Micromanipulation of Male Gametes in the Treatment of the Subfertile Male** 431
Soon-Chye Ng and Stwee-Lian Liow
38. **Fertility Preservation in Males with Cancer** 453
Paul J. Turek
39. **Treatment of Reproductive Dysfunction in Males with Spinal Cord Injury and Other Neurologically Disabling Diseases** 465
Khashayar Hematpour and Carol Bennett

Part V. Mass Lesions of the Male Reproductive System

Section I: Mass Lesions of the Penis and Testes

40. **Testicular and Penile Cancer** 481
John W. Davis, Donald F. Lynch, and Paul F. Schellhammer
41. **Prostate Disease: Prostate Hyperplasia, Prostate Cancer, and Prostatitis** 499
Stephen J. Assinder and Helen D. Nicholson

Section II: Mass Lesions of the Male Breast

42. **Gynecomastia** 519
Ronald S. Stoverloff, Jason Ng, and Fouad R. Kandeel
43. **Male Breast Cancer** 529
Sandeep K. Reddy and Lucille Leong
