

Foreword.....	v
Preface	vii
Contributors	xiii
Color Plates	xv
1 Introduction to Molecular Methods	
<i>Ricardo V. Lloyd</i>	1
2 Laser Capture Microdissection: <i>Principles and Applications</i>	
<i>Ricardo V. Lloyd</i>	11
PROTOCOL: <i>H&E Staining</i> 23	
PROTOCOL: <i>Operating the PIX Cell System</i> 24	
PROTOCOL: <i>DNA Extraction from Collected Cells</i> 24	
PROTOCOL: <i>RNA Extraction from Collected Cells</i> 25	
3 <i>In Situ</i> Hybridization: <i>Detection of DNA and RNA</i>	
<i>Long Jin, Xiang Qian, and Ricardo V. Lloyd</i>	27
PROTOCOL: <i>In Situ Hybridization</i> 45	
4 <i>In Situ</i> Detection of Infectious Agents	
<i>Gary W. Procop and Randall Hayden</i>	47
PROTOCOL: <i>Detecting Adenovirus</i> 61	
PROTOCOL: <i>Epstein-Barr Virus (Eber I/II)</i> 63	
5 Fluorescent <i>In Situ</i> Hybridization (FISH)	
<i>Susan Sheldon</i>	67
PROTOCOL: <i>FISH Materials</i> 84	
6 Practical Applications of the FISH Technique	
<i>George Kontogeorgos, Nikiforos Kapranos, and Eleni Thodou</i>	91
PROTOCOL: <i>Metaphase Analysis from Whole Blood Culture</i> 102	
PROTOCOL: <i>Metaphase Analysis from Solid Tumors</i> 106	
PROTOCOL: <i>Interphase Analysis on Cell Imprints—Cytology Specimens</i> 108	
PROTOCOL: <i>Interphase Analysis of Formalin-Fixed Paraffin-Embedded Tissues</i> 110	

7	Tyramide Amplification Methods for <i>In Situ</i> Hybridization <i>John L. Frater and Raymond R. Tubbs</i>	113
	PROTOCOL: TSA by Rapp <i>et al.</i> , 1995	125
	PROTOCOL: CARD/TSA with Nanogold	126
	PROTOCOL: Tyramide-enhanced FISH with Peroxidase-labeled Oligonucleotides	127
8	PROTOCOLS: Ultrastructural <i>In Situ</i> Hybridization <i>Akira Matsuno, Tadashi Nagashima, R. Yoshiyuki Osamura, and Keiichi Watanabe</i>	129
9	Quantitation of <i>In Situ</i> Hybridization Analysis <i>Lars-Inge Larsson</i>	145
10	PROTOCOLS: Confocal Laser Scanning Microscopy <i>Akira Matsuno, Johbu Itoh, Tadashi Nagashima, R. Yoshiyuki Osamura, and Keiichi Watanabe</i>	165
11	PROTOCOLS: Polymerase Chain Reaction <i>Yuri E. Nikiforov and Philip N. Howles</i>	181
12	PROTOCOLS: Detection of Nucleic Acids in Cells and Tissues by <i>In Situ</i> Polymerase Chain Reaction <i>Omar Bagasra, Lisa E. Bobroski, and Muhammad Amjad</i>	209
13	Immunohistochemistry: <i>Theory and Practice</i> <i>Patrick C. Roche and Eric D. Hsi</i>	229
14	Antigen Retrieval Technique for Immunohistochemistry: <i>Principles, Protocols, and Further Development</i> <i>Clive R. Taylor and Shan-Rong Shi</i>	239
	PROTOCOL: Antigen Retrieval (AR) Technique	260
15	Tyramide Amplification in Immunohistochemistry <i>Naoko Sanno, Akira Teramoto, and R. Yoshiyuki Osamura</i>	267
	PROTOCOL: CARD Immunohistochemistry	276
16	Application of Immunohistochemistry in the Diagnosis of Lymphoid Lesions <i>Paul J. Kurtin</i>	277
17	Applications of Immunohistochemistry in the Diagnosis of Undifferentiated Tumors <i>Mark R. Wick and Lisa A. Cerilli</i>	323

18 Applications of Immunohistochemistry in the Diagnosis of Endocrine Lesions <i>Ricardo V. Lloyd</i>	361
19 Ultrastructural Immunohistochemistry <i>Sergio Vidal, Eva Horvath, and Kalman Kovacs</i>	375
PROTOCOL: <i>Ultrastructural Immunohistochemistry</i> 399	
20 PROTOCOLS: Clonality Analysis <i>Aurel Perren and Paul Komminoth</i>	403
Index	413
