<i>Preface</i> .....	v
<i>Contributors</i> .....	ix
1 Defining Neural Stem Cells and Their Role in Normal Development of the Nervous System <i>Sally Temple</i> .....	1
2 Neural Stem Cells in the Adult Brain: <i>Implications of Their Glial Characteristics</i> <i>Daniel A. Lim and Arturo Alvarez-Buylla</i> .....	29
3 Cellular and Molecular Properties of Multipotent Neural Stem Cells Throughout Ontogeny <i>Larysa Halyna Pevny</i> .....	49
4 Multipotent Stem Cells in the Embryonic Nervous System <i>Ali Jalali, Michael Bonaguidi, Caitilin Hamill, and John A. Kessler</i> .....	67
5 Regulation of Neural Stem Cell Death <i>Rizwan S. Akhtar and Kevin A. Roth</i> .....	97
6 Neuronal Progenitor Cells of the Mammalian Neonatal Anterior Subventricular Zone <i>Douglas L. Falls and Marla B. Luskin</i> .....	123
7 Glial Restricted Precursors <i>Mark Noble and Margot Mayer-Pröschel</i> .....	143
8 PNS Precursor Cells in Development and Cancer <i>Houman D. Hemmati, Tanya A. Moreno, and Marianne Bronner-Fraser</i> .....	189
9 Stem Cells of the Adult Olfactory Epithelium <i>James E. Schwob and Woochan Jang</i> .....	219
10 Retinal Stem Cells <i>Ani V. Das, Jackson James, Sreekumaran Edakkot, and Iqbal Ahmad</i> .....	235
11 Transdifferentiation in the Nervous System <i>Ying Liu and Mahendra S. Rao</i> .....	249
12 Neural Progenitor Cells of the Adult Human Brain <i>Steven A. Goldman</i> .....	267

13 Embryonic Stem Cells and Neurogenesis <i>Robin L. Wesselschmidt and John W. McDonald</i> .....	299
14 Mobilizing of Neural Precursors in the Adult Central Nervous System <i>Theo D. Palmer and Fred H. Gage</i> .....	343
15 Neural Stem Cells and Transplant Therapy: <i>Intrinsic Programs and Clinical Applications</i> <i>Jaime Imitola, Yang D. Teng, Vaclav Ourednik, Kook In Park,</i> <i>Richard L. Sidman, and Evan Y. Snyder</i> .....	371
Appendix A: Neural Stem Cell Companies .....	421
Appendix B: Stem Cells and Transplants .....	425
Appendix C: Patents and Stem Cells .....	429
Appendix D: Stem Cells and US Federal Guidelines .....	431
<i>Index</i> .....	445
