Preface .....	v
Contributors .....	xi
About the Editors .....	xv
<b>I. BACKGROUND</b>	
1 Stone Nomenclature and History of Instrumentation for Urinary Stone Disease <i>Vivaj A. Master, Maxwell V. Meng, and Marshall L. Stoller</i> .....	3
2 Epidemiology and Incidence of Stone Disease <i>Joseph E. Dalleria and Paramjit S. Chandboke</i> .....	27
3 The Genetics of Stone Disease <i>Berenice Y. Reed and William L. Gitomer</i> .....	35
4 Theories of Stone Formation <i>Hsiao-Jen Chung, Harrison M. Abrabams, Maxwell V. Meng, and Marshall L. Stoller</i> .....	55
5 Structure and Compositional Analysis of Kidney Stones <i>Ian Mandel and Neil Mandel</i> .....	69
<b>II. METABOLISM</b>	
6 Calcium Physiology <i>G. Bennett Stackhouse and Marshall L. Stoller</i> .....	85
7 Management of Patients With Hyperoxaluria <i>Ojas Shab, Ross P. Holmes, and Dean G. Assimos</i> .....	103
8 Renal Acid–Base Balance and Renal Tubular Acidosis <i>Andrew I. Chin</i> .....	121
9 Urinary Stone Inhibitors: <i>Citrate and Magnesium</i> <i>Harrison M. Abrabams, Maxwell V. Meng, and Marshall L. Stoller</i> .....	157
10 Modulators of Crystallization of Stone Salts <i>Saeed R. Khan and Dirk J. Kok</i> .....	175
11 Hormonal Influences on Nephrolithiasis <i>Colonel Noab S. Schenkman and Major C. Gerry Henderson</i> .....	221
12 Associated Systemic Disease: <i>Bowel and Bones</i> <i>Michael E. Moran</i> .....	237

13	Medical Evaluation of Stone Disease <i>Clarita V. Odvina and Charles Y. C. Pak</i> .....	259
14	Pharmacologic Prophylaxis of Calcium Stones <i>Yeh Hong Tan and Glenn M. Preminger</i> .....	269
15	Diet and Urolithiasis <i>William K. Johnston, III and Roger K. Low</i> .....	285
16	Uric Acid Urolithiasis <i>Bodo E. Knudsen, Darren T. Beiko, and John D. Denstedt</i> .....	299
17	Struvite Stones <i>D. Brooke Johnson and Margaret S. Pearle</i> .....	309
18	Cystine Stone Disease <i>Bijan Shekarriz</i> .....	327
19	Urinary Stones of Unusual Etiology <i>Patrick S. Lowry and Stephen Y. Nakada</i> .....	345
<b>III. PRESENTATION AND EVALUATION</b>		
20	Imaging of Urinary Stone Disease <i>Richard S. Breiman and Fergus V. Coakley</i> .....	371
21	Physician Safety <i>Ronald M. Yang and Gary C. Bellman</i> .....	403
22	Treatment of Acute Renal Colic <i>Albert M. Ong and Thomas W. Jarrett</i> .....	415
23	Anatomical Considerations in Urinary Stone Disease <i>Louis Eichel and Ralph V. Clayman</i> .....	433
<b>IV. TREATMENT</b>		
24	Conservative Management of Ureteral Calculi <i>Christopher J. Kane</i> .....	457
25	Ureteral Stents <i>John S. Lam and Mantu Gupta</i> .....	465
26	Anesthetic Considerations for Extracorporeal Shockwave Lithotripsy, Percutaneous Nephrolithotomy, and Laser Lithotripsy <i>Mark Ancheta and Daniel Swangard</i> .....	495
27	Complications of Urinary Stone Surgery <i>Ruben Urena, Freddy Mendez-Torres, and Raju Thomas</i> .....	511
28	Extracorporeal Shockwave Lithotripsy: <i>Patient Selection and Outcomes</i> <i>Christopher S. Ng, Gerhard J. Fuchs, and Stevan B. Strem</i> .....	555

---

29	Indications and Outcomes of Ureteroscopy for Urinary Stones <i>Matthew T. Gettman and Joseph W. Segura</i> .....	571
30	Ureteroscopy: <i>Technical Aspects</i> <i>Assaad El-Hakim, Beng Jit Tan, and Arthur D. Smith</i> .....	589
31	Percutaneous Nephrolithotomy: <i>Indications and Outcomes</i> <i>Paul K. Pietrow</i> .....	609
32	Percutaneous Nephrolithotomy: <i>Technical Aspects</i> <i>Sangtae Park, Maxwell V. Meng, and Marshall L. Stoller</i> .....	621
33	Open Stone Surgery <i>Elizabeth J. Anoaia and Martin I. Resnick</i> .....	639
34	Laparoscopic Approach to Urinary Stone Disease <i>Anup P. Ramani and Inderbir S. Gill</i> .....	651
35	Stones of the Urethra, Prostate, Seminal Vesicle, Bladder, and Encrusted Foreign Bodies <i>Bradley F. Schwartz</i> .....	661
	Index .....	683
