Niche for Normal and Cancer Stem Cells <i>S.-I. Nishikawa, M. Osawa</i> . . . . .	1
c-Myc and Activated Ras During Skin Tumorigenesis: Cooperation at the Cancer Stem Cell Level? <i>A. Trumpp</i> . . . . .	13
Wnt Signaling in Stem Cells and Lung Cancer <i>B. He, D.M. Jablons</i> . . . . .	27
Bone Morphogenetic Proteins Regulate Tumorigenicity in Human Glioblastoma Stem Cells <i>S.G.M. Piccirillo, A.L. Vescovi</i> . . . . .	59
Strategies to Induce Nuclear Reprogramming <i>S. Eminli, R. Jaenisch, K. Hochedlinger</i> . . . . .	83
The Intestinal Stem Cell Niche Studied Through Conditional Transgenesis <i>A.R. Clarke, V. Meniel</i> . . . . .	99

The Migrating Cancer Stem Cells Model – A Conceptual Explanation of Malignant Tumour Progression <i>A. Jung, T. Brabletz, T. Kirchner</i> . . . . .	109
Bone Marrow Niche and Leukemia <i>A.D. Ho, W. Wagner</i> . . . . .	125
Breast Stem Cells and Cancer <i>G. Farnie, R.B. Clarke</i> . . . . .	141
Prostate Cancer Stem Cells: A Target for New Therapies <i>N.J. Maitland, S. Bryce, M. Stower, A.T. Collins</i> . . . . .	155
The Hedgehog Signaling Network, Mammary Stem Cells, and Breast Cancer: Connections and Controversies <i>M.T. Lewis, A.P. Visbal</i> . . . . .	181
Strategies to Eliminate Cancer Stem Cells <i>R.J. Jones</i> . . . . .	219
DNA Repair in Stem Cell Maintenance and Conversion to Cancer Stem Cells <i>S.L. Gerson, J. Reese, J. Kenyon</i> . . . . .	231
Tumorigenic Epithelial Stem Cells and Their Normal Counterparts <i>V.S. Donnemberg, J.D. Luketich, R.J. Landreneau, J.A. DeLoia, P. Basse, A.D. Donnemberg</i> . . . . .	245
