*Series Introduction* Alan R. Shalita . . . . v  
*Preface* . . . . vii  
*Contributors* . . . . xv

**1. Topical Anesthesia . . . . . 1**  
*Paul M. Friedman, Erick A. Mafong, Adrienne S. Glaich, and Roy G. Geronemus*  
Introduction . . . . 1  
EMLA . . . . 3  
LMX<sup>®</sup> . . . . 6  
Betacaine-LA<sup>®</sup> . . . . 8  
Tetracaine<sup>®</sup> . . . . 9  
Topicaine . . . . 10  
S-Caine Patch . . . . 10  
S-Caine Local Anesthetic Peel . . . . 11  
Cost Comparison . . . . 13  
Conclusion . . . . 14  
References . . . . 15

**2. Advanced Cosmetic Use of Botulinum Toxin Type A . . . . . 19**  
*Alastair Carruthers and Jean Carruthers*  
Introduction . . . . 19  
Botulinum Neurotoxins . . . . 19  
Treatment of the Upper Face . . . . 22  
Chemodenervation in the Mid and Lower Face and Neck . . . . 26  
Adjunctive Therapy . . . . 32  
Complications . . . . 34  
Conclusion . . . . 36  
References . . . . 37

**3. Soft-Tissue Augmentation: Skin Fillers . . . . . 39**  
*Jaggi Rao, Janna Bentley, and Mitchel P. Goldman*  
Introduction . . . . 39  
Temporary Fillers . . . . 45

Permanent Fillers . . . . .	55
Complications of Exogenous Soft-Tissue Augmentation . . . . .	63
Conclusion . . . . .	65
References . . . . .	67
<b>4. New Trends in Fat Augmentation Techniques with an Introduction to the FAMI Technique . . . . .</b>	<b>71</b>
<i>Kimberly J. Butterwick</i>	
Introduction . . . . .	71
Fat: Temporary Filler or a Living Graft? . . . . .	71
Preparation Techniques . . . . .	72
Harvesting Techniques . . . . .	73
Injection Techniques . . . . .	77
Complications of Fat Augmentation Procedures . . . . .	86
Longevity of Fat Augmentation Procedures . . . . .	87
Touch-Up Procedures . . . . .	88
Summary . . . . .	89
References . . . . .	90
<b>5. Liposuction . . . . .</b>	<b>93</b>
<i>Gerhard Sattler</i>	
Introduction . . . . .	93
History of Liposuction . . . . .	93
Tumescent Local Anesthesia . . . . .	94
Physiology of Liposuction . . . . .	95
Evaluation of Patients . . . . .	96
Technique of Liposuction . . . . .	97
Postoperative Findings . . . . .	101
Noncosmetical Indications for Liposuction . . . . .	102
New Developments in Liposuction . . . . .	104
Summary . . . . .	115
References . . . . .	116
<b>6. Laser-Assisted Blepharoplasty . . . . .</b>	<b>117</b>
<i>Alina A. M. Fratila</i>	
Introduction . . . . .	117
History . . . . .	117
Surgical Anatomy of the Orbital Unit . . . . .	118
Initial Consultation . . . . .	121
Relative Contraindications . . . . .	122
Preoperative Documentation . . . . .	122
Laser-Assisted Upper Eyelid Blepharoplasty . . . . .	123
Laser-Assisted Lower Eyelid Blepharoplasty . . . . .	131
Complications and Their Treatment . . . . .	145
Complications After Blepharoplasty . . . . .	148

Conclusion . . . . 156  
 References . . . . 157

**7. Laser Hair Removal . . . . . 159**  
*Suzanne L. Kilmer*  
 Introduction . . . . 159  
 Patient-Related Factors . . . . 161  
 Parameter Selection . . . . 164  
 Lasers . . . . 166  
 Which Is Best? . . . . 173  
 Patient Consent . . . . 173  
 Treatment . . . . 174  
 References . . . . 180

**8. Laser Treatment of Vascular Lesions . . . . . 185**  
*Arielle N. B. Kauvar*  
 Introduction . . . . 185  
 Lasers for Vascular Lesions . . . . 186  
 Clinical Applications . . . . 192  
 Conclusion . . . . 196  
 References . . . . 197

**9. Laser Treatment for Leg Veins . . . . . 201**  
*Neil S. Sadick*  
 Introduction . . . . 201  
 Continuous Wave Nd:YAG Lasers . . . . 204  
 Continuous Wave Lasers . . . . 206  
 Pulsed Lasers and Light Sources . . . . 206  
 Long-Pulsed Nd:YAG Laser (1064 nm) . . . . 210  
 Skin Cooling Devices . . . . 211  
 Combined Laser/Radiofrequency Technologies . . . . 212  
 Conclusions . . . . 213  
 References . . . . 215

**10. Laser Resurfacing with the UPCO<sub>2</sub> + Er:YAG Lasers . . . . . 219**  
*Mitchel P. Goldman*  
 Introduction . . . . 219  
 References . . . . 238

**11. The Role of Pulse Dye Laser in Photorejuvenation . . . . . 241**  
*Steven Q. Wang and Brian D. Zelickson*  
 Introduction . . . . 241  
 Pulse Dye Laser . . . . 242  
 Type II Photorejuvenation . . . . 243  
 Patient Treatment Protocol . . . . 247  
 Summary . . . . 252  
 References . . . . 253

<b>12. Nd:YAG (1064 nm) Laser</b> . . . . .	<b>255</b>
<i>David J. Goldberg</i>	
Introduction . . . . .	255
References . . . . .	267
<b>13. Improvement of Acne Scars and Wrinkling with 1320 nm Nd:YAG Laser</b> . . . . .	<b>269</b>
<i>Robert A. Weiss and Margaret A. Weiss</i>	
Introduction . . . . .	269
The 1320 nm Device (CoolTouch®) . . . . .	270
Summary . . . . .	281
References . . . . .	282
<b>14. 1540 and 1450 nm Noninvasive Rejuvenation</b> . . . . .	<b>285</b>
<i>Murad Alam, Te-Shao Hsu, Jeffrey S. Dover, and Kenneth A. Arndt</i>	
Introduction . . . . .	285
1540 nm Erbium:Glass Laser . . . . .	286
1450 nm Diode Laser . . . . .	289
References . . . . .	293
<b>15. Intense Pulsed Light and Nonablative Approaches to Photoaging</b> . . . . .	<b>295</b>
<i>Robert A. Weiss, Margaret A. Weiss, and Mitchel P. Goldman</i>	
Introduction . . . . .	295
Wavelength . . . . .	297
Spot Size . . . . .	299
Pulse Durations . . . . .	300
Concepts of Multiple Sequential Pulsing . . . . .	302
Treatment of Photoaging with IPL . . . . .	303
Treatment Technique . . . . .	310
Adverse Reactions . . . . .	310
References . . . . .	313
<b>16. Advanced Sclerotherapy: The Sclerosing Foam</b> . . . . .	<b>317</b>
<i>Alessandro Frullini</i>	
Introduction . . . . .	317
Foam and SF . . . . .	318
Techniques for SF Preparation . . . . .	321
Clinical Applications of Foam Sclerosants . . . . .	323
Complications with SF . . . . .	327
Conclusions . . . . .	328
References . . . . .	329
<b>17. Principles and Technique of Ambulatory Phlebectomy</b> . . . . .	<b>331</b>
<i>Albert-Adrien Ramelet and Robert A. Weiss</i>	
Introduction . . . . .	331
Indications . . . . .	332

Preoperative Evaluation of the Patient . . . . 333  
 Instrumentation and Operating Environment . . . . 333  
 Patient Marking and Anesthesia . . . . 335  
 Technique . . . . 337  
 Postoperative Medication and Prophylactic  
     Anticoagulation . . . . 339  
 Postoperative Care and Bandaging . . . . 339  
 Results . . . . 340  
 AP of Body Areas Other Than the Legs . . . . 341  
 Complications and Their Treatment . . . . 341  
 Long-Term Results . . . . 344  
 References . . . . 345

**18. Endovenous Elimination of the Great Saphenous Vein with  
 Radiofrequency or Laser . . . . . 347**  
*Robert A. Weiss and Mitchel P. Goldman*  
 Introduction . . . . 347  
 RF Endoluminal Obliteration (Closure™) . . . . 348  
 RF Closure™ Using Duplex Guided Cannulation . . . . 350  
 RF Closure™ with Ambulatory Phlebectomy . . . . 352  
 Tumescence Anesthesia for Endovenous Procedures . . . . 354  
 Clinical Technique for RF Closure™ . . . . 355  
 Follow-Up Care . . . . 357  
 Endovenous Obliteration of the GSV with Endoluminal Laser Ablation  
     (810 nm, 940 nm, and 980 nm) . . . . 357  
 CoolTouch CTEV™ Endovenous Treatment . . . . 359  
 Technique of CoolTouch CTEV™  
     Endovenous Treatment . . . . 362  
 Summary . . . . 363  
 References . . . . 364

**19. Radiofrequency Tissue Tightening: Thermage . . . . . 367**  
*Carolyn I. Jacob and Michael S. Kaminer*  
 Introduction . . . . 367  
 Mechanism of Action . . . . 368  
 Clinical Scientific Data . . . . 372  
 Treatment Protocols . . . . 376  
 Discussion . . . . 388  
 References . . . . 390

*Index . . . . 391*
